

## Proposed Short-Term Reservation Process

**Proposal: Award reservations solely on a first come, first served basis**

- Eliminate the ability for longer term service requests to preempt shorter term service requests (bumping market)
  - Results in elimination of conditional/unconditional windows and right of first refusal
  - Affects reservation process for short-term firm and nonfirm service.
- Proposal requires revisions to Open Access Transmission Tariff and Business Practices.
- No change to short-term products and associated reservation windows (see chart below)

Product	Term	Reservation Windows <sup>1/</sup>	
		Opens (# of days prior to commencement of service)	Closes
Monthly	28 – 364 calendar days	60 days	Normal scheduling day for the service commencement day <sup>2/</sup>
Weekly	7 – 27 calendar days	14 days	
Daily	1 – 6 calendar days	7 days	

<sup>1/</sup> Reservations are final when they have been confirmed by the customer and accepted by TBL.

<sup>2/</sup> Monthly, weekly, and daily reservation windows close at 9 a.m. of preschedule day.
