13 Nature of Firm Point-To-Point Transmission Service

13.2 Reservation Priority

~~Long Term~~ Firm Point-To-Point Transmission Service shall be available on a first-come, first-served basis i.e., in the chronological sequence in which each Transmission Customer has reserved service. ~~Reservations for Short Term Firm Point To Point Transmission Service will be conditional based upon the length of the requested transaction. If the Transmission System becomes oversubscribed, requests for longer term service may preempt requests for shorter term service up to the following deadlines: at 2:00 p.m., or as soon as practicable thereafter, of the preschedule day for the day of delivery for the hourly service; one day before the commencement of daily service; one week before the commencement of weekly service; and one month before the commencement of monthly service. Before the conditional reservation deadline, if available transmission capability is insufficient to satisfy all Applications, an Eligible Customer with a reservation for shorter term service has the right of first refusal to match any longer term reservation before losing its reservation priority. A longer term competing request for Short Term Firm Point To Point Transmission Service will be granted if the Eligible Customer with the right of first refusal does not agree to match the competing request within 24 hours (or earlier if necessary to comply with the scheduling deadlines provided in section 13.8) from being notified by the Transmission Provider of a longer term competing request for Short Term Firm Point To Point Transmission Service. After the conditional reservation deadline, service will commence pursuant to the terms of~~

~~Part II of the Tariff.~~ Firm Point-To-Point Transmission Service will always have a reservation priority over Non-Firm Point-To-Point Transmission Service under the Tariff. All Long-Term Firm Point-To-Point Transmission Service will have equal reservation priority with Native Load Customers and Network Customers. Reservation priorities for existing firm service customers are provided in Section 2.2.

14 Nature of Non-Firm Point-To-Point Transmission Service

14.2 Reservation Priority

Non-Firm Point-To-Point Transmission Service shall be available from transmission capability in excess of that needed for reliable service to Native Load Customers, Network Customers and other Transmission Customers taking Long-Term and Short-Term Firm Point-To-Point Transmission Service. Non-Firm Point-To-Point Transmission Service shall be available on a first-come, first-served basis; i.e., in the chronological sequence in which each Transmission Customer has reserved service. A higher priority will be assigned to reservations with a longer duration of service. In the event the Transmission System is constrained, competing requests ~~of equal duration~~ will be prioritized based on the highest price offered by the Eligible Customer for the Transmission Service. ~~Eligible Customers that have already reserved shorter term service have the right of first refusal to match any longer term reservation before being preempted. A longer term competing request for Non-Firm Point to Point Transmission Service will be granted if the Eligible Customer with the right of first refusal does not agree to match the competing request:~~

(a) ~~immediately for hourly Non-Firm Point-To-Point Transmission Service after notification by the Transmission Provider; and,~~

(b) ~~within 24 hours (or earlier if necessary to comply with the scheduling deadlines provided in section 14.6) for Non-Firm Point-To-Point Transmission Service other than hourly transactions after notification by the Transmission Provider.~~

Transmission service for Network Customers from resources other than designated Network Resources will have a higher priority than any Non-Firm Point-To-Point

Transmission Service. Non-Firm Point-To-Point Transmission Service over secondary Point(s) of Receipt and Point(s) of Delivery will have the lowest reservation priority under the Tariff.
