

Order 890 Deviations List

A list of changes and deviations requested by TS for the OATT under Order 890

PLEASE NOTE THERE MAY BE ADDITIONAL CHANGES PRIOR TO FILING WITH FERC

The first section shows changes BPA made relative to the current OATT. We are adopting the changes as they appear in Order 890. The second section has changes to BPA's current OATT that reflect only a portion of the change from Order 890. BPA either modified or dropped some of the language that appeared in Order 890. The third section shows what BPA is not adopting from the Order 890 pro forma OATT. The fourth section shows new language developed by BPA that is not in Order 890. The last section shows where BPA chose to insert pro forma language deleted in its current OATT. The same listing may appear in more than one section.

Order 890 sections BPA is adopting without any deviations developed
