

Transmission Services

NETWORK RESOURCE DESIGNATION FORM

The following form is to be used for the designation of New Network Resources and for exercising reservation priority on existing Network Resources.

Please complete the Attestation information requested on page 1, as well as supplemental data for power arrangements (*either* Section II or Section III) on page 2-3. The signed forms should be e-mailed in .PDF format to: TxRequests@bpa.gov.

Contact Name:

Address:

Telephone Number:

Fax Number:

NT Service Agreement No.:

Associated NT Reservation A-Ref.:

ATTESTATION

Customer attests that the Network Resource specified below satisfies the following conditions:

(1) Customer owns the resource, has committed to purchase generation pursuant to an executed contract, or has committed to purchase generation where execution of a contract is contingent upon the availability of transmission service under Part III of the Tariff; and,

(2) The Network Resource does not include any resources, or any portions thereof, that are committed for a sale to non-designated third party load or otherwise cannot be called upon to meet the Network Customer's Network Load on a non-interruptible basis, except for purposes of fulfilling obligations under a reserve sharing program.

Customer further attests that in the event the above Assign Ref **XXXXXXXX** is replaced by a 'conformed' Transmission Service Request (TSR), the Network Resource associated with such conformed TSR will also satisfy the conditions above.

POWER ARRANGEMENTS
(Complete either Section I or Section II as appropriate)

Part I. Complete for On System Resources ONLY (contract or owned). On System Resources are generating resources within the BPA Balancing Authority Area:

Start Date and Stop Date:

Power Purchase Agreement No. (if applicable):

Name of New Network Resource:

Nameplate Capacity of New Network Resource:

MW to be designated as a Network Resource:

VAR capability (both leading and lagging) of all generators:

Maintenance schedules:

Minimum loading level of unit:

Normal operating level of unit:

Any must-run unit designations required for system reliability or contract reasons:

Approximate variable generating cost (\$/MWH) for redispatch computations:

If the resource is located in BPA's Balancing Authority but only a portion of the output is designated as a Network Resource, provide details on the arrangements for sale and delivery of additional output to third-parties:

Part II. Complete for Off System Resources ONLY (contract or owned). Off system resources are generating resources outside the BPA Balancing Authority Area:

Start Date and Stop Date:

Power Purchase Agreement No. (if applicable):

MW to be designated as a Network Resource:

Identification of the balancing authority from which the power will originate:

Transmission Interface for Delivery to BPA Control Area

Transmission Arrangements on external transmission systems(Identify the A-ref number):

Any periods of restricted operations throughout the year:

Maintenance schedules:

Minimum loading level of unit:
Normal operating level of unit:
Any must-run unit designations required for system reliability or contract reasons:
Approximate variable generating cost (\$/MWH) for redispatch computations:
