TRANSMISSION BUSINESS LINE

July 29, 2004

In reply refer to: TMC/DITT2

To Interested Parties and Customers:

On Thursday Aug. 5, 2004, the Bonneville Power Administration's Transmission Business Line will hold the second in its series of customer workshops for setting transmission rates for fiscal years 2006 and 2007. The rates workshop will address the revenue requirement, segmentation, risk, and the Large Generation Interconnection Order.

The workshop will be held from 12:30 p.m. until 4 p.m. in the Rates Hearing Room at the BPA headquarters building at 911 N.E. 11th Ave., Portland, Ore.

A phone bridge is available for anyone who would like to participate by telephone. To access the bridge, please dial (503) 230-5566, wait for the beep and then enter the pass code 2323#. Please mute your telephone by dialing *6 after connecting to the bridge.

An agenda and handouts will be posted to the TBL website at http://www.transmission.bpa.gov/Business/Rates_and_Tariff/ prior to all meetings.

Please note that, immediately preceding the rates workshop, TBL is holding a Programs in Review technical workshop on Debt Optimization and financing alternatives from 9 a.m. to 11:30 a.m. in the same room and at the same telephone bridge number.

Due to increased security, please allow additional time for entry into the building. You must present a photo ID and sign in at the security desk.

Please direct any questions to your TBL account executive, or email to tblfeedback@bpa.gov. You can also call toll free to 1-888-276-7790.

Sincerely,

A handwritten signature in cursive script that reads "Nancy Parker".
